

WAREHOUSE EXCELLENCE

ENABLED

WORLD-CLASS GATE MANAGEMENT

- Tablet-based streamlined shipment check-in/out. Three quick steps. No paper.
- Work Queue dashboard focuses attention on priority and at-risk shipments.
- On-demand visibility of critical event data (timestamps) and docs (BOL).

INCREASE WAREHOUSE PRODUCTIVITY

- Focus attention on shipments to priority customers.
- Faster gates. Driver stays in the cab. Eliminate check-in lines.
- Turn docks faster. Expedite at-risk deliveries (seal or temp alerts).

ELIMINATE TRANSPORTATION WASTE

- Detention risk alert reduces tractor dwell time.
- Faster turns reduces line haul rates.
- FIFO on trailer pool cuts demurrage costs.

IMPROVE CARRIER RELATIONS

- Happy drivers. Back on the road fast.
- Event timestamps eliminate accessorial debates.
- Real-time visibility to trailer pool. No spreadsheets.

BIG DATA CONTINUOUS IMPROVEMENT

- Data-driven network operations. No more dueling data.
- Analyze inspection failures. Act fast on the most frequent.
